

## Electronic converters Series DFD420

### Converter for flow measurement instruments

- Electronic converter for flow applications
- Programmable via USB cable by means of Tecfluid S.A. Winsmeter DFD420 software
- Pulse input, compatible with series COVOL and TM flowmeters, as well as other pulse transmitters on the market
- Programmable frequency to current (4-20 mA) converter
- Digital output configurable as:
  - Input to output pulses converter, by means of a programmable division factor
  - Flow alarm
- Possibility of input signal linearization
- User selectable password protection
- Power supply: 12 ... 36 VDC, 2-wire system
- DIN rail mounting or compact mounting with aluminium housing
- Ingress protection: IP68 (when supplied with aluminium housing)
- Ambient temperature: -20°C ... +85°C
